## [RUSH] MESSAGE:

Paper copy of sequence listing dated 11/30/98 has 5981 sequences and computer readable form received has 5982. The two must match.

Thank you!

[XRUSH] RESPONSE: Both the paper copy and CRF of 11/30/1998 have 5981 sequences (see CRF doc of 2/9/1998. The CRF of 11/30/1998 was not entered due to format errors. On 1/18/2001 a CD-Rom copy and a CRF were filed to replace the original copies. The CRF of 1/18/2001 was entered (see CRF doc of 2/6/2001). The 1/18/2001 CRF has 5981 sequences. There is an apparent discrepancy between the original paper copy and the entered CRF.

INITIALS: JB

NOTE: This form will be included as part of the official USPTO record, with the Response document coded as XRUSH.
